

Report to:	Council of Governors	Agenda item:	21
Date of Meeting:	7 June 2018		

Title of Report:	Lead Governor's Update Report
Status:	For Information
Board Sponsor:	Chris Callow, Lead Governor
Author:	Chris Callow, Lead Governor
Appendices	None

Introduction

This report is a quarterly report to provide an update to the Council of Governors from the Lead Governor, Chris Callow.

Update Report

- The Annual report for 2017-2018 is coming up, can I remind all governors to feed into one of the working groups for content for this report. The group chairmen will take the lead of course, but I am sure that they would all appreciate contributions.
- All opportunities to push the good work and positive contributions that the RUH is taking with the membership/staff and stakeholder governor group should be taken. Nationally admissions to A&E are 70k a day, up from 60k last year, big strain. Some 17% of ambulances are delayed 30 mins or more, we do not do that at the RUH. Thinking hat on how to assist with engaging with our members in transforming care in the 21 Century.

Recommendations

The Council of Governors is asked to note the report.
