Media Release

RUH to hold its AGM for 2022

A review of the Royal United Hospitals Bath NHS Foundation Trust's achievements over the last 12 months, as well as the challenges that have faced the hospital, will be among the topics on the agenda when the Trust holds its AGM on Monday 19 September.

The AGM will also include presentations about the hospital's new vision and goals, as well as reports on the Trust's activities over the last year and information about our annual report and accounts.

Trust Chair Alison Ryan said: "This meeting is the perfect opportunity for people to find out more about the Trust's achievements over the last 12 months, as well as the on-going challenges we and the whole of the NHS continue to face.

"We will be sharing the progress we have made over the last year as well as looking ahead at what the future might hold for the RUH.

"We will also be updating everyone about our new vision and goals, which we will be launching soon following months of engagement with our staff and community. This is a fantastic opportunity to come along and hear about our ambitions, offering direction, hope and energy for everyone we work with and for, alongside the massive challenges faced by the NHS."

The AGM is open to everyone and takes place on Monday 19 September from 5pm at the Apex City of Bath Hotel, James Street West, Bath.

Places must be booked in advance. To secure your seat:

- Visit: <https://ruhagm2022.eventbrite.co.uk/>
- Call 01225 826288 / 821262
- Email RUHmembership@nhs.net

Ends

Chair:
Alison Ryan

Chief Executive:
Cara Charles-Barks

Notes to Editor:

The Royal United Hospitals Bath NHS Foundation Trust provides acute treatment and care for a catchment population of around 500,000 people in Bath, and the surrounding towns and villages in North East Somerset and Western Wiltshire. The hospital provides healthcare to the population served by four Clinical Commissioning Groups: Bath & North East Somerset CCG, Wiltshire CCG, Somerset CCG and South Gloucestershire CCG.

The Trust provides 759 beds and a comprehensive range of acute services including medicine and surgery, services for women and children, accident and emergency services, and diagnostic and clinical support services.

In 2015 The Royal United Hospitals NHS Foundation Trust acquired the Royal National Hospital for Rheumatic Diseases (RNHRD) NHS Foundation Trust. The RNHRD treats patients from across the country offering services in rheumatology, chronic pain and chronic fatigue syndrome/ME, cancer related fatigue and fatigue linked to other long term conditions such as multiple sclerosis.

The RUH is changing - we have an exciting programme of redevelopment underway transforming our site and further improving the services we provide. The Trust has opened the purpose-built RNHRD and Brownsword Therapies Centre and is now working towards the new Dyson Cancer Centre. For more details visit: www.ruh.nhs.uk/about/fit_for_the_future
