

Contacting the Wards

Each ward has a direct telephone number which is given to the patient when they arrive.

It would be a big help if this number is given out to just one person, who can then act as a point of contact for other friends and relatives.

Please avoid telephoning the wards at meal times.

**Visiting times for most wards:
11:00 a.m. – 8:00 p.m.**

Please check visiting times with the relevant ward.

Up to 2 visitors will be allowed at the bedside at any time. Please ask staff if children are allowed to visit on your particular ward.
